# Charity Blast: The ultimate fundraising tool!

## For Organizations

We all know that fundraisers are essential to the financial health of organizations and non-profit companies. We also know that "that time of year" can be riddled with stress, frustration and distraction— for planners, participants and parents alike.

Charity Blast was developed by a group of parents who have participated in countless fundraisers— as partici-

pants, parents and as planners. Charity Blast is the revolutionary approach to fundraising because it allows supporters to give to organizations while shopping for goods and services they'd likely purchase online anyway, so

there's no real out-of-pocket cost to them. Charity Blast helps organizations gain funds and frees them up to focus on their mission, without needless distractions.

### How it works:

Your own "Storefront" is set up containing offers for products and services. Organizations earn cash when a visitor clicks an ad and makes a purchase. Charity Blast tracks every sale and manages every account, and also offers great incentives to fundraising participants. No paperwork, no accounting. Just steer the people to the site and let the funds flow in. All at NO COST to your organization!

To get your free Charity Blast organization storefront, visit [www.CharityBlast.com](http://www.CharityBlast.com) or call 1-877-247-1879.
